

Vehicles of the incident response service

Hazardous Material Emergency Response Service (HAZMATers)

HAZMATers is defined as, HM Emergency Response Service for the transporters, the shippers, etc. MDPC responds to any kind of HM (except radioactive and biohazard material) incident including but not limited to leak, spill and fire. MDPC is responsible for incident management such as leak stoppages, spill containment, and HM transfer operation at the site on behalf of the polluter.

MDPC organizes HM incident response teams at Yokohama and Kobe.

The teams stand by 24 hours, 7 days a week, 365 days per year and cover certain areas where the teams arrive on the response vehicles within 6 hours.
